

Forecasting Without Project Conditions

Status:

In Progress

IWR Contact:

Darrell Nolton (Darrell.G.Nolton@usace.army.mil)

Purpose:

The purpose of this effort is to: 1) explain and document the rationale for developing the future without project condition; 2) describe the required quantity, quality, timing, and location of data for developing sufficient without project conditions; 3) offer potential information gathering strategies for future without project conditions; 4) briefly describe potential forecasting methods and potential ways of addressing uncertainties in those forecasts; 5) offer a set of characteristics of good without project conditions (e.g., comprehensive, rational, alternative future-oriented, honest, and inclusive); and 6) provide examples of developing appropriate future without project conditions in a typical Corps study setting.
